- Influence Others

Because we work in highly diverse, complex, multi-functional teams, we're at our best when we build relationships in ways that create trust. As we engage with one another to build and maintain productive relationships, we need to continually share information, ideas and resources within and across teams. Regardless of the pace, intensity or urgency we may encounter in specific situations, we always communicate with respect and humility as well as confidence and energy. We confront issues, not people.

Sachin has emerged as a great asset for the Chaingang team. He has learnt a great deal of knowledge in various areas that has helped him counted as a reliable member who can be trusted upon. He has great ability to learn new things (Onbase, loadrunner) to prove his mettle. Gathering good hold on stepwise, xpression, finance in quick time has been few plus points. His efforts towards GL files, HPG2, UWCLASS were highly acknowledged.

With experience comes the greater responsibility, I have strong belief that Sachin would continue to keep challenging himself to grow bigger than yesterday by identifying opportunities for improvement, innovations, taking greater accountability/ownership etc.

I wish him all the best.
