## Values Based Competencies (if applicable)

Our success within a dynamic and fast-paced marketplace depends on our ability to invent the future as we learn from the past. It requires an innovative mind-set that involves respectfully challenging the way things are done as well as having the curiosity and courage to develop new ideas. We are curious and not afraid to fail in honest efforts to focus on practical and purposeful innovation that builds value. We recognize the impact that innovation has beyond our products or services, and how it can enhance the way we conduct business. It helps create positive, practical change to best serve our mission of helping people lead healthier lives.

Needs Improvement	Meets Expectations	Exceeds Expectations
-------------------	--------------------	----------------------

## Evaluation Summary

1	2	3	4	5
---	---	---	---	---

Sukumar has joined Facets UHOne program in July 2019 clearing an IJP for Sr. Quality Engineering. Sukumar quickly learnt the foundation of UHOne and his team Chaingang very quickly and started delivering quality work within quick time. He has been very good in automation and did fairly well in all his automation stories.

While Sukumar has started playing a key role in the Chaingang, there are still quite a few things that Sukumar can work on to take greater accountability/ownership. Sukumar comes great automation expertise and is expected to look beyond his team to see potential automation opportunities that can benefit the overall program. Sukumar can also be little more vocal in bigger platform like scrum calls/team meetings to mark his impact.

I wish him all the best.
